

PLACEMENT CELL

Placement Cell handles campus placements of the graduating students of the college and organizes career counselling workshops to help students to succeed at the recruitment process. To bridge the gap between the needs of the industry and skills of the students, Placement Cell helps in organizing events and programs that provide avenues to the students to get exposed to the real world of work. The cell organizes workshops and skill training sessions that enable students to enrich their biodata. The cell assists and guides the students for placements by identifying prospective recruiters, building association and maintaining continuous relationship with corporate houses through Industry-Institute partnerships.
